british sensibility

Julian Chichester is primarily an individualist – a tastemaker rather than a follower – whose creative inspiration comes from classic English furniture-making, coupled with an admiration for innovation.

all about the details

Julian Chichester material selections are as old as the ages — leather, vellum, shagreen, bronze and brass, for example. Yet they are all given a contemporary contextualization in our finishing process, with a strong sense of mid-century European design and detailing.

customizing julian chichester

Quite often, Julian Chichester furniture ticks every box: Our off-the-peg styles, sizes and interesting standard options suit your design plan — perfectly. But what if you desire a non-standard finish, custom dimension or something even more specific for your project? Don't despair. We take this sort of bespoke custom work easily in stride. Our in-house design team and fabrication capacity often exceed expectation, from initial inspiration to final execution. We relish achieving unusual results. It's an exciting, innovative and rewarding process.

C

THE CUSTOM PROCESS:

THE COLOURIST COLLECTION

Lacquer finishes date back to antiquity. Today, Julian Chichester has modernized Old World techniques with the Colourist Collection, an assortment of fresh modern furniture designs available in a seemingly endless palette of lacquered paint colors.

Choose from any Benjamin Moore or Sherwin-Williams hue. The proprietary finishing process includes 7-8 rounds of color coating to achieve a dense and luminous glow, and a choice of three sheen levels: Matte, High Gloss or Satin. The result: masterpieces for the modern world.
